

SPECIFICATION AMENDMENTS

Kindly amend specification paragraph 0122 as follows:

az [0122] The actual torque or engine actual torque produced or theoretically produced by the load on the clutch apparatus is determined and is indicated as signal 62. That engine actual torque ~~52~~ 62 is subtracted from engine target torque 64 in step 66, and on the basis of the torque difference 68, and a corresponding rotational speed 72 is determined in accordance with engine characteristic 70.
